Detailed Action

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Anne S. Hobbs on October 28, 2005.

Claims

The following changes to the claims were approved by Ann S. Hobbs: Claim 100, replace the word 'gene' with 'nucleic acid;' Claim 102, take out the word 'human' and insert 'contiguous' between 'a' and 'base;' claim 103, take out the phrase 'human DNA' of the first line and replace with 'nucleic acid,' and take out the phrase 'constituting the gene' in the second line.

Suspension of Prosecution

Claims 100, 102, 103, 105, 107, and 109-112 are now allowable. However, due to a potential interference, *ex parte* prosecution is **SUSPENDED** for six months. Upon expiration of the period of suspension, applicant should make an inquiry as to the status of the application. In particular, the issued US patent number 6,500,643 contains claims that potentially interfere with claims in the instant application.
